

GibbsCAM Registration Instructions

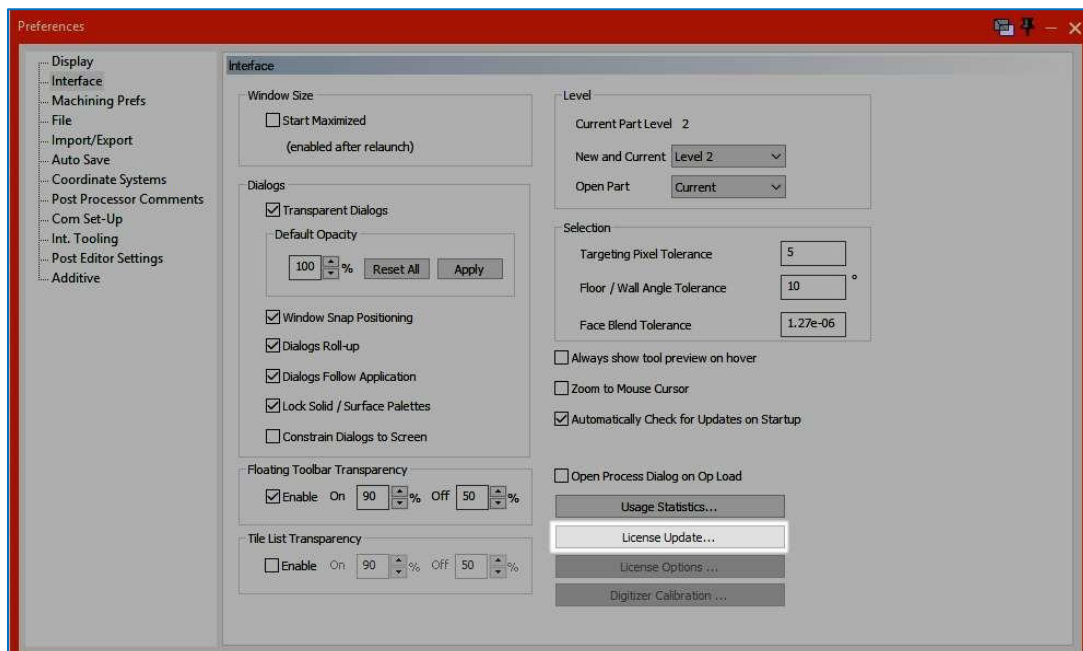

If you are currently able to launch GibbsCAM

(if you are adding modules or updating license for other reason)

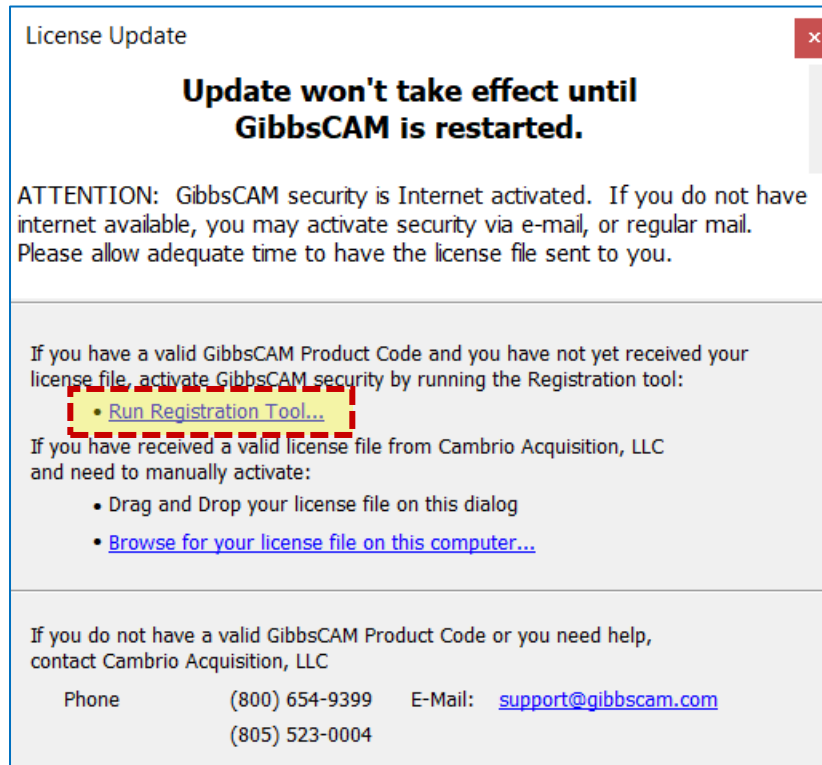

- 1) Launch GibbsCAM.
- 2) Navigate to **File > Preferences > Interface**

- 3) Click on the **License Update** button.

4) Select Run **Registration Tool** and follow the prompts.

5) Restart GibbsCAM.

If you cannot launch GibbsCAM at this time

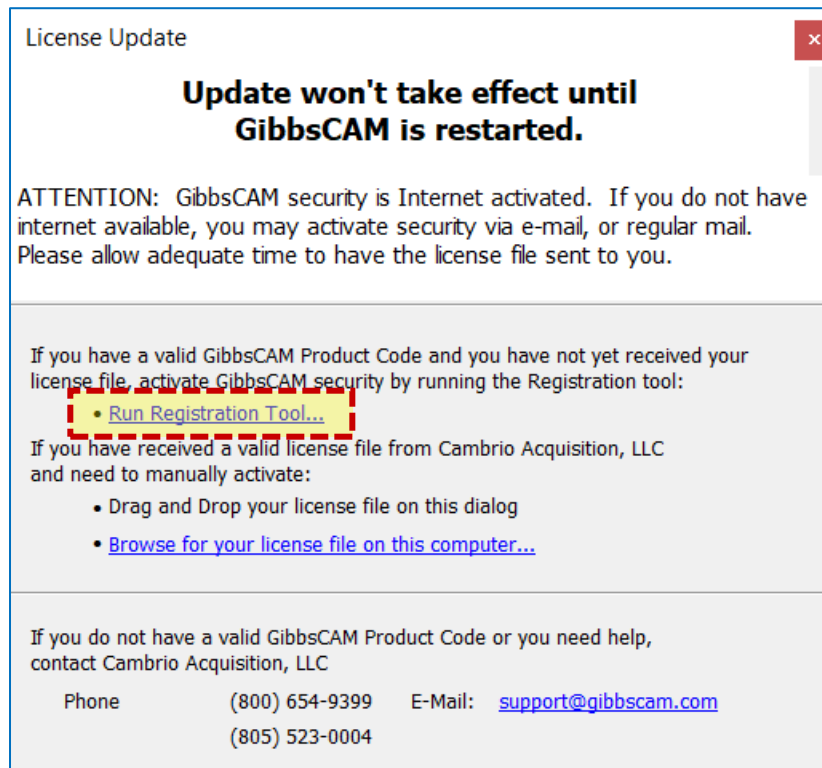

1) Click on the Windows icon to open the Start Menu and navigate to **GibbsCAM > Registration Tool vx.x.x**

2) Select the appropriate license type (hardware locked if you have a key or temporary license. Network License Client for NLO).

3) Select Run **Registration Tool** and follow the prompts.

Note: GibbsCAM does not support activation over remote desktop
